

DIRECT SELLING SOFTWARE

Secure. Stable. Scalable.

WHAT WE DO?

DevPros is a full-service digital agency and technology partner specializing in Direct Sales.

WHY CHOOSE US?

✔ Customer Service

✔ Flexibility

✔ Platform

✔ SME (Subject Matter Expert)

Full-Cycle Software Engineering

You provide us with your vision and we handle the rest. DevPros will estimate, engineer, design, code, test, and launch your project. We utilize the most advanced security and engineering methodologies to ensure our clients build ROI-driven products.

Agile Team Staffing Solutions

We assist companies with **tech shortfalls** by adding expert resources quickly. Hire a dedicated software developer to collaborate with your in-house team or to work as a standalone unit. We even support outside back-office software.

Strategic Partner

If you would like to build an application, upgrade an existing technology, or future-proof your software, DevPros has the proven track record, expertise, and talent to create your vision quickly and cost-effectively. We have provided hundreds of completed projects with competitive **pricing and immediate** availability.

FREQUENTLY ASKED QUESTIONS

How quickly can we launch?

DevPros can deliver a standard website and backoffice platform in as little as 45 days, depending on the specific needs and requirements of your company.

By coming on board with DevPros, we can also build a custom website, commission structure, and backoffice (including migration of your current data from other platforms) in as little as 90 days.

How efficiently can DevPros scale?

DevPros's platform was designed and built with scalability in mind. Our professional-grade platform can be tailored to small companies with only a few thousand members to large companies with hundreds of thousands of members. Here at DevPros, unlike other companies, we focus on your growth and performance, rather than hourly billing.

How simple is it to expand internationally?

DevPros currently operates in more than 30 countries with 10 different currencies. In addition to the North American market, our specialty is Asia, Latin America, and Australia. We have the ability to integrate with most reputable third-party vendors worldwide to provide you with extremely efficient, cost effective, and reliable platforms.

Is your platform mobile responsive?

Using the most modern technology available, DevPros's platform was designed from the ground up to be 100% mobile-friendly and responsive, unlike other platforms built on legacy systems.

Is it possible to choose my own merchant account?

Yes, DevPros can partner with any merchant account provider that has API capabilities.

Is DevPros a one-stop service provider?

DevPros and its sister companies, RiseLab, Bloomberg Publishing, and Eventsia, are the industry's first one-stop service provider. In addition to your website and backoffice needs, we also provide video production, logistics and manufacturing, social media management, customer service, and legal and accounting services.

What makes DevPros different?

There are a handful of good backoffice companies in the direct sales industry. However, DevPros is unique in its boutique-style approach, which empowers our clients with a modern and professional-grade platform designed to handle all needs and requirements, without breaking the bank.

Can DevPros partner with our third-party vendors?

DevPros can collaborate with any third-party vendor that has API capabilities. We have integrated with dozens of companies in social media, tax compliance platforms, shipping and logistics, and merchant account providers.

Can we migrate from older systems?

DevPros has the ability to migrate your data from any older system, including legacy, with a few simple requirements. Our expert engineers and developers will help simply and seamlessly migrate your data to our new-gen system.

Can I purchase and host the system myself?

For our enterprise clients who have an in-house team, DevPros's platform can be purchased for a one-time cost with or without a monthly maintenance plan.
